ESREL 2006

Safety and Reliability International Conference
18-22 September 2006
Estoril Congress Centre
Estoril, Portugal

Scope of the Conference

The annual ESREL Conferences stem from an European initiative merging several National Conferences into a major yearly Conference under the auspices of ESRA, the European Safety and Reliability Association.

The purpose of the ESREL Conferences is to provide a forum for the presentation of technical and scientific papers covering both methods and applications in the fields of risk, safety and reliability to a wide range of industrial sectors and problem areas.

The Conference will cover all sectors of industrial activity and services as well as all technical disciplines related with risk, safety and reliability. Details will be included in the Conference web page (www.esrel2006.com).

Conference Venue

The Conference will be held at the Estoril Congress Centre (www.estorilcongresscenter.com), which is a new facility situated close to the well known Estoril Casino.

Estoril is one of the main coastal towns on the outskirts of Lisbon, located approximately 25 kms from Lisbon city centre. It has mild winters and an ideal summer temperature. A scheduled train journey of approximately 30 minutes links Estoril and Lisbon. The airport shuttle bus operates daily on a schedule service between Lisbon airport and Cascais, via Estoril.

Call for Papers

Papers are invited for submission through the Conference web page (www.esrel2006.com).

Manuscripts will be reviewed by the Programme Committee in accordance with the standard practice and criteria and final acceptance of the papers is based on the review of the full papers.

The official language of the Conference will be English.

Local Organisers:

Instituto Superior Técnico
Technical University of Lisbon

Conference Chairman:

Carlos Guedes Soares
guedess@mar.ist.utl.pt

Conference Secretariat:

Fátima Pina
esrel2006@mar.ist.utl.pt
