

(1) POSTDOCTORAL FELLOWSHIP

Job: Pós-doc

Job/Fellowship Reference: Pós-doc/StemCell/01-2013

Main Research Field: Stem Cell Bioengineering

Sub Research Field: Cardiovascular/Hematopoietic applications

Job Summary: Financed by a QREN project (StemCellBiotech), reference CENTRO-07-0224-FEDER-002008, Biocant – Technology Transfer Association invites applications for a Pós-Doc position in Stem Cell bioengineering. Expertise in the area of Stem cells for the treatment of cardiovascular/hematopoietic diseases will be acknowledged. The position is for 25 months. The monthly salary, paid by bank transfer, will be 1495 €, plus social security reimbursements is included in the package according to FCT.I.P. <http://alfa.fct.mctes.pt/apoios/bolsas/valores>, beginning in October.

Job Description: The Biocant – Technology Transfer Association wishes to hire a Pós-Doc to develop collaborative research in Stem Cell Bioengineering, specifically for the treatment of cardiovascular/hematopoietic diseases. Experience in these areas will be acknowledged in the selection process.

It is expected that the Investigator will be involved in projects in the intersection of biomaterials with stem cells, and in Regenerative Medicine.

The candidate should hold a PhD in Biological Sciences, Bioengineering or Materials Science or related areas. Preference will be given to candidates with proven interdisciplinary background. Candidates with high-impact publications will be acknowledged in the selection process.

Selection Committee: Doutor Lino da Silva Ferreira, Prof. Doutor Euclides Pires, Doutor Eduardo Silva.

Publication of results: The results with the final classification and the selected candidate will be notified by email.

Evaluation: The candidates will be evaluated according to their cv, experience in the field and interview of selected candidates.

Application deadline: The applications can be submitted from 9th until 30th August 2013. Applications must be submitted through letter including curriculum vitae, copy of degree and other relevant documents. Applications must be submitted through electronic mail to Leonor Jesus, Biocant, Cantanhede, email: leonor.jesus@biocant.pt

Creating Value in Biotechnology
